

# Lidl Regional Distribution Centre Mullingar

Robinstown, Co. Westmeath

Our management team and staff were awarded this project after competitive tendering procurement to design & build a 45,000 m<sup>2</sup> regional distribution centre and 1,500 m<sup>2</sup> of office accommodation including all associated site development works.

This design and build project was delivered in a 7 month period. Some of the main elements of the scope of the works include:

- Structural Steel Frame
- Roofing and Cladding
- Precast Wall Panels and Precast Structure for the office block
- Precast System for 120 no. Dock levellers
- 8000 m<sup>2</sup> of concrete jointless floor
- Freezer & Cold Storage Rooms
- Mechanical, Electrical, Sprinkler and Lift installations
- Site development works

Due to the fast track nature of this project, many elements of prefabrication were provided, including precast panels, precast structure for the office block, sprinkler pipe work, electrical cable systems, and freezer wall panels. This project showcases our staff's ability to successfully deliver large-scale fast-track design and build projects competitively in the market.
