ESG Reporting

Meet SustainIQ

THE ALL-IN-ONE SUSTAINABILITY & ESG REPORTING SOFTWARE

SustainIQ provides users with one integrated reporting dashboard for all aspects of ESG.

Report on areas such as **Waste Management**, **Scope 1, 2 & 3 GHG Emissions**, **Social Value**, **Biodiversity**, **Workplace Wellbeing**, **Diversity** & so much more.

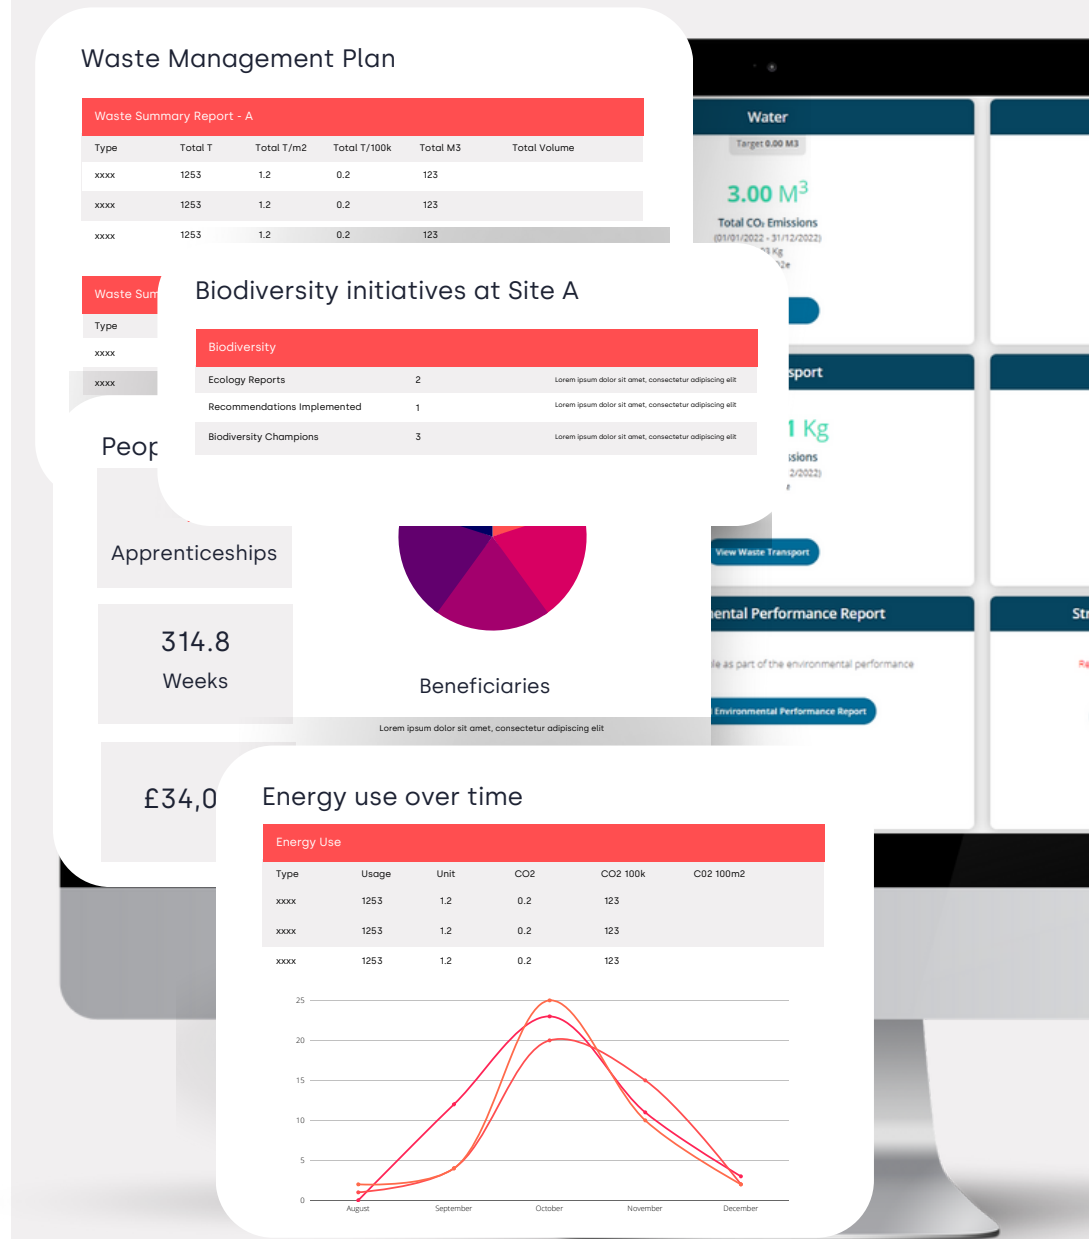

Discover how you can save time & money, drive competitiveness, build trust in supply chains and create a sustainable brand image with SustainIQ

WHY ARE ELLIOTT GROUP USING SUSTAINIQ?

Elliott Group are introducing SustainIQ to measure, monitor and report the environmental, social and economic impact of all construction sites across the organisation.

The construction industry as a whole contributes to 39% of global energy-related emissions. To play our part in reducing emissions, Elliott Group are levelling up our approach to reporting in order to identify and maximise carbon reduction opportunities and improve our overall ESG performance.

Using SustainIQ's easy-to-use web-based app, Elliott Group sites will now capture over 200+ ESG metrics from a site level up to standardise and simplify ESG reporting.

Responsible Procurement

Environmental Management

People, Health & Diversity

Community Engagement & Partnering

Our Four Reporting Pillars

REPORTING ON PEOPLE, PLANET AND PROFIT.

SustainIQ provides full reporting across our four pillars which categorise different types of data in each reporting section.

Using one software, Elliott Group will now report on the following areas under each pillar:

Responsible Procurement

- Circular Economy, Volume of Recycled Goods, Socio-Economic Impact, Supplier Accreditations and Standards, Supply Chain Portal, Work Package Management

Environmental Management

- Waste Management, GHG Emissions, Transportation Emissions in Scope 1 and Scope 3, Biodiversity, Water Waste, Full Environmental Performance Reporting, Benchmarking and Goal Setting

People Health & Diversity

- Health and Safety, Training Initiatives, Apprenticeships, Wellbeing Initiatives and Diversity & Inclusion Initiatives

Community Engagement & Partnering

- Community Initiatives, Volunteering, Charitable Donations, Education Engagement, Responsible Leadership and Charity Partnerships

The Benefits

INCREASE COMPETITIVE ADVANTAGE

Sustainability & ESG measures are increasingly relevant in public sector bids & tenders. Public Procurement Notes (PPN) 06/20 and 06/21 mean that carbon reduction plans and social value are essential to winning work. Sustainability is no longer a "nice to have," it's an essential commercial requirement.

REDUCE RISK

Regulatory and non-compliance risk is growing. The Irish Climate Action Plan, the CSRD, the Waste Framework Directive, the SFDR and the EU Taxonomy. The list is endless, and ever-growing. Sustainability & ESG data mitigates the risk of non-compliance, and maximises the potential for excellence.

BUILD TRUST

Transparency is key to building trust. Emerging regulation will require companies like yours to disclose sustainability performance. Having data to verify green claims provides peace of mind for both you, and your clients, ensuring that they can trust your business.

SAVE TIME & MONEY

Measuring, monitoring & reporting on sustainability & ESG is time-consuming. Using SustainIQ, you could reduce time-spent on reporting by 34% on each project. Drive competitiveness, reduce risk and establish a trusted brand, all while saving your essential resources and creating efficiencies.

Benefits for Business

A donut chart with a white border and a red segment representing 34% of the total. The number '34%' is displayed in the center of the chart.

34%

Average time saved on sustainability reporting

A donut chart with a white border and a red segment representing 20% of the total. The number '20%' is displayed in the center of the chart.

20%

Up to 20% more competitive in PQQs, Bids & Tenders

A donut chart with a white border and a red segment representing 4% of the total. The number '4%' is displayed in the center of the chart.

4%

Cost saving across waste, water and energy

A donut chart with a white border and a red segment representing 11% of the total. The number '11%' is displayed in the center of the chart.

11%

Average increase in sustainability initiatives across supply chain

A donut chart with a white border and a red segment representing 19% of the total. The number '19%' is displayed in the center of the chart.

19%

Average decrease in CO2 emissions yearly per company

A donut chart with a white border and a red segment representing 12% of the total. The number '12%' is displayed in the center of the chart.

12%

Increase in staff engagement
